TEXAS CROPS.

A RAINLESS ATMOSPHERE THROUGH-
OUT THE STATE WAS THE RULE
FOR THE PAST WEEK.

The Corn Crop Made, But the Drouth Be-
gins to Have Injurious Effects on
the Cotton.

Special to the Statesman.

GALVESTON, August 8.—The weekly
weather crop bulletin of the Texas
state weather service for the week ending
August 8 reports as follows:

The temperature during the first
part of the week was from 2 to 4 de-
grees above the normal, but during the
latter part of the week has been 2 to
4 degrees below.

Sunshine has been about the aver-
age amount except along the coast it
has been less than usual, and very lit-
tle rain has fallen over the state dur-
ing the past seven days except immedi-
ately along the coast and at a few in-
terior points where from 1 to 1½ inches
has fallen.

The cotton crop is generally looking
well, but is beginning to need rain,
and in some localities is shedding bolls
and squares. The boll worm is re-
ported plentiful from a few localities.
A good rain in the next few days will
make a fine cotton crop.

Austin, Oscar Samostz—Rain is
needed; otherwise prospects are good.

Duval, John C. Edgar—Cotton shed-
ding badly and early plantings have
stopped growing. Young cotton would
be greatly benefited by a good rain;
no worms.

Decatur, H. D. Donald—Cotton
looks well.

San Marcos, C. W. Gregory—Cotton
is failing rapidly, and a short crop is
inevitable unless rain comes and that
speedily. Two weeks ago fully a bale
per acre was confidently expected, but
now the prospect is that the yield will
not exceed one-third to one-half a
bale.

Graham, A. B. Grant—Cotton splen-
did. Millet and sorghum doing well.

Longview, S. M. Boughton—Cotton
looking well; light rains did much
good.

Fort Worth, J. G. Mallette—Indica-
tions very favorable for a big cotton
crop.

Waco, W. S. Godlee—Weather very
favorable to the growth of cotton.
Cotton is just coming on the market.

Corsicana, E. F. Gelsor—Cotton gen-
erally doing well and coming on the
market.

Dallas, M. E. Glass—Cotton crop
assured good; other crops good.

LaGrange, Joseph Calton—Cotton
picking is going on lively and the crop
is good.

Belton, C. A. Sterling—Cotton is
beginning to shed bolls. The pros-
pects are for a smaller crop than last
year. The corn crop is not so heavy
as last year, but good.

Brenham, J. G. Sloan—Cotton need-
ing rain badly. The cotton worm has
appeared in some places and is doing
considerable damage. Poisoning is
resorted to.

Brady, Wm. H. Potter—Cotton is
doing well though hot and dry.

Houston, A. Hutchinson—The tem-
perature during the past seven days
has been somewhat lower. Rain has
fallen to the north and southwest of
this place and a light shower fell
here on Tuesday. The condition is
flattering.

Navasota, E. E. Hull—Needing rain.
The first bale of cotton put on the
market on the 4th inst.

Mesquite, Silas G. Lackey—The
cotton crop is doing fairly well; it has
been too dry and hazy during the past
week. There is some complaints of
boll worms.

Pilot Point, W. L. Mook—Cotton
doing splendidly, but the boll worm
has made its appearance in some
parts of the county.

Castroville, Herman E. Hass—Cot-
ton needing rain.

Cedar Hill, J. P. Berry—The
weather for the past seven days has
been very favorable for cotton, and
the prospects now are good for a heavy
yield.

Brownwood, J. T. May—Corn is
made; cotton and all other crops need
rain badly.

Merkel, J. F. Naughtan—Corn is al-
most made and will be a fine crop.
Cotton looks well but needs rain. The
ground is too dry for late cotton.

Columbia, J. S. Rogers—Cotton
worms have become general, but have
done no damage yet. Poisoning is be-
ing resorted to.

Burnet, Wm. M. Spiller—The
weather has been some cooler for the
past few days, which has been an ad-
vantage to the cotton crop. Rain is
needed, but well informed parties say
the prospect is better than last year.
Picking has begun.

Kentucky Democrats.

LOUISVILLE, August 7.—Returns
from the state election, up to this
morning show that the democrats
have an increased plurality of 18,000
over the election of two years ago,
and that Monday's majority will reach
35,000. The last legislature stood
102 democrats and 36 opposition.
That elected Monday will consist of
114 democrats and 24 republicans.

KNIGHTS OF HONOR.

Meeting of the State Grand Lodge of the Or-
der at Paris—Officers Elected.
Special to the Statesman.

PARIS, Tex., Aug. 7.—The State Grand
Lodge, Knights of Honor, met at 9 a.
m. The committee on credentials re-
ported the arrival of eight representa-
tives since the first day's session. In
the afternoon the lodge proceeded to
the election of officers for the ensuing
term, with the following result:

J. R. Cole, of Sherman, dictator; O.

J. Hendrick, of Harmony Hill, vice
dictator; Wm. P. Cole, reporter; John
B. Wolfe, of Cameron, treasurer; J. E.
Binkley, of Columbus, chaplain; W.
J. Murchison, of Lovelady, guide; R.
W. Hudson, of Pearsall, guardian of
chair; B. Bennett, of Weimar, senti-
nel; D. Osborne, of Cleburne, state
medical examiner.

Grand trustees—Ed. R. Kone, of
San Marcos; G. H. Bruce, of Willis
Point; Fritz Tegener, of Austin. Rep-
resentatives and alternates to the
supreme lodge will be elected in the
morning. The lodge will adjourn to-
morrow afternoon.

Justice Lamar Praises Texas.

MEMPHIS, August 7.—Judge Lamar,
who is en route to his home in Geor-
gia, stopped over in Memphis to-day
to visit his daughter, Mrs. Hugh Hey-
skell. In reply to the questions as to
what impressions he gathered of the
material prosperity of the states
through which he traveled, he said:
"I was immensely pleased with what
I saw. In Alabama they are making
prodigious strides in manufacturing.
Of Louisiana I saw little but New Or-
leans, which seems to be growing in
wealth and importance. Of Texas I
saw more than any other state. Its
growth has been wonderful. The
barbed wire fence is a great civilizer.
Under its influence what were formerly
extensive cattle ranches have been
transformed to great farms, blossom-
ing with crops of cotton and corn and
wheat, and peopled by a race of thrifty,
industrious and intelligent farmers,
the whites largely predominating.
Texas is an empire in itself."

THE CONTRACT LABOR LAW.

It Will Not Prevent the Landing of Foreign
Catholic Professors.

BALTIMORE, August 7.—Notwith-
standing the recent decision of Solic-
itor of the Treasury Hepburn, adverse
to the importation of foreign professors
engaged by Bishop Keane last winter
for the Catholic University at Wash-
ington, those gentlemen will come to
this country and take the places for
which they are intended. The edu-
cators are the Rev. Dr. Schroeder, of
the Cologne Seminary, for dogmatic
theology; Rev. Dr. Banquillon, of the
University of Lille, moral theology;
Dr. Hyernat, of the Apollonaires of
Rome, Holy Scriptures; Rev. Dr.
Joseph Poble, of Fulda, philosophy,
and Charles Warren Stoddard, Eng-
lish literature.

After the rendering of Mr. Hep-
burn's opinion the matter was carried
before the attorney-general, but the at-
torney-general declined to take up the
case because it was as yet hypothet-
ical. He would give no opinion until
the arrival in this country of the per-
sons referred to. Since that time
everything has been arranged to the
entire satisfaction of the university
authorities. They have been given
assurances that their foreign educa-
tors will not be interfered with. So a
gentleman, a government official of
high standing, told a reporter yester-
day. The professors will be permitted
to land without question. If, how-
ever, upon their arrival objection
should come from any quarter, it will
be decided, and very properly too, by
competent authority that the law pro-
viding for the exclusion of labor under
contract was not intended to apply to
the class named.

Pasture's Method.

CHICAGO, August 7.—Residents of
Chicago or elsewhere who may be un-
fortunate enough to be bitten by mad
dogs will not hereafter have to go to
Paris to be treated by Pasteur. The
country's public service committee has
set apart two rooms in ward thirteen
to be used by Dr. Antonio Legario for
the treatment of hydrophobia accord-
ing to Pasteur's method. Dr. Legario
is a Chicagoan by birth, but he spent
five years as a student with Pasteur.
The hospital medical staff recom-
mended the utility of bacteriological
work and preventive inoculation for
rabies at the hospital, and Dr. Legario
will undertake it.

WASHINGTON NOTES.**INSTRUCTIONS TO TEXAS COLLECTORS.**

WASHINGTON, August 9.—Acting
Secretary Batchelor has authorized
collectors of customs at Eagle Pass and
Corpus Christi, Tex., to allow Mexican
ores actually on the cars in course of
transportation from Mexico prior to
the receipt by them of the new regu-
lations, to pass under the regulations
in force previous to that date.

THE ENCOURAGEMENT OF IMMIGRATION**ALREADY PRODUCING RESULTS.**

WASHINGTON, August 9.—Before
leaving Buenos Ayres for home,
United States Minister Hanna wrote
a short report to the state department
on immigration into the Argentine
Republic. He says it is setting in
from all countries of Europe and the
great number of arrivals is marvellous.
They are generally assisted by the
Argentine government to the extent
at least of having their passages paid
from starting point to destination in
the interior. The amount thus paid
in March alone is estimated at
\$1,000,000. Already this vast influx,
the minister says, is beginning to tell
on the exports of corn. Last year the
country shipped 445,000 tons of corn.
This year it will go above 2,000,000
tons. Mr. Hanna further says: "In
the vast fleet of merchant ships and
great steamers coming here to trade
from European port the United States
flag is rarely seen, but it is hoped and
believed that the policy of the new
administration on the subject of an
encouraged steam navigation between
the United States and South American
ports will successfully solve this em-
barrassment."

When you suffer from sick headache, dizziness, constipation, etc., remember Carter's Little Liver Pills will relieve you. One pill is a dose.**GALVESTON.**

A FURIOUS GALE BREAKS OVER THE
CITY IN THE EARLY MORNING,
45 MILES AN HOUR.

Nearly All the Small Craft in the Harbor
Wrecked—But Little Damage in
the Town.

Special to the Statesman.

GALVESTON, August 9.—The cyclon-
ic weather that has prevailed in this
locality for the past two days culmi-
nated this morning in a furious
gale, which wrecked signs, tore
branches from trees and played havoc
with small craft along the wharf.
The gale broke over the city about 3
a. m., and for about three hours blew
with a velocity of forty-five miles an
hour, when it gradually subsided.
During its prevalence the wind
shifted from the northeast to the
north, where it attained its
greatest fury, and as it subsided it
gradually shifted to the
southwest. All the pleasure yachts
and boats in the harbor were either
wrecked, sunk or badly damaged, and
many of the larger craft suffered
severely. The loss along the water
front is estimated at fully \$15,000.
The damage in the city, however, is
slight. The weather is now clear and
beautiful with a gentle breeze from
the southeast.

STARVING MINERS.

Congressman Lawler Takes a Decided Stand
in Aiding Suffering Strikers in North-
ern Illinois.

CHICAGO, August 8.—The Chicago
committee on relief for the destitute
coal miners at Streator, Ill., and else-
where in northern Illinois, headed by
Congressman Frank Lawler has is-
sued an address to the people of Illi-
nois. It sets forth that, according to
conservative statistics of the Miner's
union, 4,052 families, making 18,450
persons who are dependent upon char-
ity in this district. The committee
says that the arbitration compromise
price for mining of 72½ cents per ton
reached in one of the mines in Streator
is too low, and suggests that a further
conference be held with a view, if pos-
sible, of fixing the rate at 75 cents,
with a resumption of work throughout
the entire district. To this end the
following telegram was sent to-day:

A BIG TRUST.

The Table Glassware Manufacturers of Sev-
eral States Forming a Combination.

CHICAGO, August 9.—A special from
Pittsburg says: One of the most
gigantic combinations in industrial
work that has ever been seen is being
perfected. It is the incorporation of
table glassware manufacturers of
Pennsylvania, Ohio and West Virginia
into an immense trust. The head-
quarters will be in Pittsburg, and the
table glass works of three states will be
under one management and control.
The matter has been under considera-
tion for some time, and crystallizing
not rapidly but surely. The details
are now in perfect shape, and the
combination is assured. The
economy secured by having one com-
pany controlling an enormous prod-
uct under a single management will
alone save a handsome profit, aside
from the protection it will afford
against inevitable loss from over-
production, rate cutting, etc. The cor-
poration to be formed proposes to pur-
chase various plants at their appraised
value, allowing liberal compensation
for the good will and established trade.
All factories, large and small, go into
this company on an equal basis. The
Pittsburg table and glassware manu-
facturers are said to be in the com-
bine.

AN ELECTRICAL SHOCK.

Terrible Experience of a Niagara Falls Hotel
Clerk.

BUFFALO, N. Y., August 9.—At the
Niagara House, Niagara Falls, at about
8 o'clock one evening recently, Jacob
Fetter, the clerk, having finished his
labor for the day, sat down on a win-
dow-sill in the office and rested his
head against a small iron box used as
a cut off of the incandescent light. In
a few moments he leaned through the
open window to speak with someone
in the hall and in doing so his right
hand came in contact with a steam
pipe. A blinding flash occurred,
illuminating his whole body.
A man present sprang to the
rescue, and with a superhuman effort
pulled Mr. Fetter away. He dropped to
the floor and his shrieks caused a
crowd to collect, among whom was a
doctor, who undertook to restore the
man to consciousness. Another doctor
was summoned, and in a short time
Mr. Fetter revived. His hair was cut
off where his head had come in con-
tact with the box, and a large and
deep hole was found in his scalp. The
hand which had rested on the steam
pipe was blistered. When Mr. Fetter
became conscious he asked what had
happened, saying that he had felt no
pain. He only complained of the
burn on his hand and was not aware
of the injury to his head. It is thought
impossible that he can recover.

Respected.

ST. LOUIS, August 9.—A special from
Fort Smith, Ark., says: Everything
was in readiness for the execution to-
day of Jack Spaniard and Bill Walker.
Last night the president granted
Spaniard an additional respite to Aug-
ust 30, and Judge Parker at once
telegraphed the president asking that
Walker be respite to the same date.
The respite was received at 10 o'clock
this morning.

PAINLESS BEECHAM'S PILLS

THE GREAT ENGLISH MEDICINE

WORTH A GUINEA A BOX

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Flashes, and Swelling after Meals, Dizziness and Drowsiness, Cold Chills, Flushing of the Face, Loss of Appetite, Shortness of Breath, Costiveness, Scurvy, Blotches on the Skin, Disturbed Sleep, Faintness, Trembling, and Trembling Sensations, &c. THE BAZAAR

Checkered Front, 505 Cong. Ave

Four of a Kind.

We see numerous "Big Sales" advertised, and we have concluded to have 'em also, just to keep up with the times.

Big Clearing Sale!

The object of this sale is to get rid of a large amount of goods at about the usual prices. It lasts the year round with us.

"Big Fire Sale!"

We have not had any fire yet, but we may some time, so we are selling as fast as we can to get ready for it, at our usual close prices.

"Big Sale to Reduce Surplus Stock."

The stock is surplus and we make prices that reduce it every day in the year. "BIG SALE OF DAMAGED STOCK." We had no "damaged stock" on hand, but as we find some people are willing to pay more for damaged stock than sound goods would cost them, we have damaged a little and raised prices on it, to pay for the trouble. Sound stocks at the usual low prices for cash.

FENNER & CYPHER.

Hood Seminary.

202 West Eighth Street, Austin, Texas.

A Home School for Texas Girls.

The eleventh session opens September 9, 1889. The course of study is complete through the primary, preparatory and collegiate departments. The curriculum is divided into the school of history, school of English language and literature, school of natural science, school of mathematics and school of languages. A diploma with the title of full graduate is conferred upon any student who has completed a full course of study as laid down in the curriculum. Young ladies may elect a course of study from these schools and receive a corresponding diploma. Unusual facilities are provided for the study of music and art. All departments are thorough. Good government and careful literary and moral training has always characterized this institution and will continue to receive the strictest business attention of the faculty. Books open for enrollment August 20, limited to sixty pupils. Seven teachers employed. For Catalogue apply to R. L. HOOD, Principal.

SEXUAL POWER

Positively and Permanently Restored in 2 to 10 days; EFFECTS IN 24 HOURS; almost immediate relief.
